STRAWBERRY PLANTS

(For Spring 1958 Shipment)

We are facilitated to take care of your strawberry orders, large or small, making shipment direct to your customers under your tags or direct to you in large lots for reshipment. We recommend shipping soft succulent plants like strawberries (unless you have your own cold storage facilities) direct from grower to customer. When handling orders in this manner, plants are received by the customer in better condition for planting. Dormant plants from our modern cold storage are used in filling all late spring orders; our experience proves they transplant more satisfactorily.

Double Pink Pendulant Peach

Queen of Hearts - This beautiful small tree does not droop as full as much as the red or the white varieties, but has more of a spreading pendulant habit which gives a superbly artistic effect. The blooms are fully double and a clean, sparkling, pure pink closely set on twisting arching branches, creating a picture that you will long remember. This little tree even when not in bloom is most pleasing to look at. We are sure you will highly enjoy this in a choice spot in your garden or perhaps as an isolated specimen on the lawn.
